

Equivalence Partitioning Questions

Example:

Identify the equivalence classes for the following conditions and write down test cases for them:

- (i) -10 to 100
- (ii) -20
- (iii) {-4.5, 6.8, 9.0, 11.2, 102.7}
- (iv) {T, F, T, T}
- (v) {1, 3, 5, 5, 90, 150}

Question 1:

Identify the equivalence classes for the following conditions and write down test cases for them:

- (i) 50 to 200
- (ii) 75
- (iii) {-3.2, 5.5, 8.0, 15.4, 200.1}
- (iv) {'A', 'B', 'C', 'D'}
- (v) {10, 20, 30, 40, 50, 100}

Question 2:

Identify the equivalence classes for the following conditions and write down test cases for them:

- (i) -25 to 75
- (ii) 0
- (iii) {-10.5, 3.3, 7.9, 14.1, 90.5}
- (iv) {"Yes", "No", "Maybe"}
- (v) {2, 4, 6, 8, 10, 100, 200}

Question 3:

Identify the equivalence classes for the following conditions and write down test cases for them:

- (i) -50 to 50
- (ii) 25
- (iii) {0.1, 1.5, 3.3, 12.6, 99.9}
- (iv) {"Red", "Green", "Blue"}
- (v) {11, 22, 33, 44, 55, 99}

Question 4:

Identify the equivalence classes for the following conditions and write down test cases for them:

- (i) Range: 100 to 500
- (ii) Specific value: 250
- (iii) Set of values: {-5.0, 10.1, 50.5, 500.5, 999.9}
- (iv) Set of days: {"Monday", "Tuesday", "Wednesday"}
- (v) Set of numbers: {5, 10, 15, 20, 30, 60, 120}
